EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 29, line 27, the word "shoes" has been changed to --shows--.

In claim 13, line 5, "controlled" has been changed to --controller--.

In claim 19, line 8, the word "state" has been added after the word "second".

Allowable Subject Matter

2. Claims 1-30 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach a method and circuit for detecting over programming in a memory system. In particular, a method comprises the steps of: programming a multi-state storage element with data for a particular logical page; and using data from a logical page different than the particular logical page to determine whether the step of programming the multi-state storage element over programmed the multi-state storage element.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited in the form PTO-892 teach programming multi-level for multi-page cells.
